*Adriana Heikkila*

### **Blooms of Bressingham**

Showy and floriferous! *Lychnis Petite Jenny* offers a great compact habit, 14-in. tall and 18-in. wide. Covered with masses of fluffy pink blooms from mid-May into fall atop erect, leafy stems. It has a longer blooming period due to the flowers being sterile. Easy-to-grow. Suitable for smaller gardens and containers. Flowers attract bees, butterflies, hummingbirds and are deer resistant. USDA Hardiness Zones 3 to 7. Available through Green Leaf Plants, Gulley Greenhouse, James Greenhouses and Pioneer Gardens.

### **Dosatron International Inc.**

Dosatron has introduced HM Digital handheld meters and testers to the Dilution Solutions product line to test your water. EC and pH have major roles in the quality of your water and, ultimately, the quality of your plants. With professional and economy lines, HM Digital has the perfect meter for any kind of grower, providing fast, accurate readings you can trust. The meters are made with sophisticated technology, including digital calibration, replaceable probes and are waterproof.

### **Resolite**

Resolite is now offering 8mm Twin Wall High Diffused HD Soft White panels with a 15-year non-prorated warranty. Designed specifically for the greenhouse industry, these sheets offer 100% light diffusion with 80% light transmission. Growing with high diffused coverings will optimize crop growth while producing bigger, uniform plants with brighter more vibrant colors. HD Soft White is also available in Greca corrugated covering.

### **Florensis**

*Leucanthemum maximum* Lagrande is a pure white, first-year flowering perennial and flowers one week earlier than Lacrosse. Lagrande has a large first flower and many secondary flowers follow shortly, giving it a long shelf life at retail. This new leucanthemum is ideal for quarts or three in a gallon.

### **Rimol Greenhouse Systems Inc.**

Rimol Greenhouse Systems offers a wide array of free-standing greenhouses that are built solid for heavy snow and wind loads. Truss supports and wind bracing are standard on most sizes and these free-standing greenhouses can be ordered as high tunnels with longer ground posts. Most orders ship within two weeks and the Rimol free-standing greenhouses are easy to assemble with the excellent directions that are provided.

### **PanAmerican Seed**

The new cherry-sized tomato Chocolate Sprinkles from PanAmerican Seed is outstanding, with a unique look and full-bodied tomato flavor. In trial locations across the country, feedback is positive on many levels: looks, taste and plant performance. The fruit's red color with dark green overlay/stripping gives it its "chocolaty" appearance. The indeterminate plants continue to produce firm, crack-resistant fruit all season for a long harvest window. It also offers higher disease resistance than similar striped cherry varieties.
