### **Growers Supply**

GrowSpan Series 500 Tall High Tunnels offer superior ventilation and maximum usable growing space due to their increased sidewall height. Start growing earlier and grow late into the fall with a GrowSpan Series 500 Tall High Tunnel. Experience larger, healthier yields due to the maximum usable space.

### **Harnois Greenhouses**

This Luminosa Greenhouse Series 8-9-11 is the beefed-up, northern version of their popular Luminosa, with over 500 acres sold across the world in warm, tropical climates. Already featuring amazing light levels, superior stability in climate control and improved yields, it now has reliable snow load capacities. Brighter and stronger, it's competitively priced against other high-quality, gutter-connected greenhouses.

### **Proven Winners LLC**

If you love the look and performance of Butterfly Argyranthemum, which is one of Proven Winner's top 50 sellers, take a look at the new Pure White Butterfly. The two are evenly matched for size and timing, making it easy for growers and retailers to offer them side by side. Never before have they seen the heat tolerance of Butterfly Argyranthemum replicated in a pure white color—it's a breeding breakthrough. Blooms from spring through fall. 18- to 36-in. tall by 12- to 20-in. spread. Part sun to sun.

### **Selecta One**

The Trixi multiliner program has unique and exciting mixes that show beautifully in both containers and baskets. There's a color to suit every mood and occasion. This innovative collection continues to grow with new and improved mixes each season to wow your customers. Many of the varieties in Trixi combos have been bred and upgraded specifically for better combo performance in multiliner mixes. Choose from mono or multi-species combos. Pictured: Berry Daring 17.

### **Sun Gro Horticulture**

The 2017 Professional Calendar from Sun Gro Horticulture is a page size, laminated calendar that features quick calculator facts covering bale and pot-filling amounts, fertilizer calculations, spray coverage, drench rates for soilless media and metric conversions. Check out the handy 2017 grower calendar on Sun Gro's website or ask your Sun Gro sales representative.

### **Terra Nova Nurseries Inc.**

New Coleus Terra Nova Magic Spell is a multi-colored plant with petite, fuchsia-to-cream-centered leaves with green edges. It's been bred to have a small, trailer-mounding habit, with a foliage height of 10 in. and foliage spread of 24 in. This self-branching variety has a fast growth rate and a 4-in. pot will finish in three to four weeks. Landscape values include use as a groundcover and in hanging baskets, mixed containers, mass beds and summer borders. **GT**
