What's Postponed, What's Rescheduled?

Chris Beytes

We won't bother to mention all the shows and events that have been cancelled or postponed; you can assume anything that was scheduled to take place in May and into June is on that list. To keep up to the minute, bookmark www.hortcalendar.com and subscribe to Allison Westbrook's HortCalendar Highlights newsletter.

Luckily, many events are already being rebooked from spring to fall. For instance, the National Hardware Show in Las Vegas is rescheduled for September 1-3; the National Greenhouse Manufacturers Association Spring Meeting will become a Fall Meeting October 11-14; and GreenTech Amsterdam has rescheduled for October 20-22.

For more resources on COVID-19, visit our website at growertalks.com/COVID-19, which includes:
