Bougainvillea Growers International

SuperGain is a natural and organic-based plant food supplement designed for all types of vegetation, including ornamental plants, interior plants, turf, trees, vegetables, fruits and citrus. The premium plant performance activator contains more than 400 natural, beneficial plant-based supplements designed to activate specific physiological capabilities in both indoor and outdoor plants, such as root development, flowering, chlorophyll production and drought resistance. SuperGain is food-quality formulated and safe to use on vegetables and fruits. Available in 4-oz. and 8-oz. bottles that can be applied in a foliar spray or soil drench mix.

Concept Plants

Miss Saori Hydrangea, which won Plant of the Year 2014 at the Chelsea Flower Show, is available in the U.S. via liners through Silver Falls Nursery in Salem, Oregon. The Hydrangea macrophylla cultivar features star-shaped double flowers with deep rose petal margins that soften into white with pink accents. Hardy to Zone 5a, the picotee blooms appear on both new and old wood. Burgundy-hued leaves provide contrast and interest when not in flower. It maxes out at 3.5-ft. tall and wide.

Ball Horticultural Company

Ball Horticultural Company continues to provide top-performing plants for a wide range of landscape professionals. Landscape growers: Help your customer work and design smarter through Ball's annual [Thrive Online Landscape Solutions](#) tools. This year's Thrive 2.0 is optimized for the web and delivers timely topics each month to your inbox. In addition, discover valuable landscape solutions, download presentations, see what's new and browse Ball landscape brochures and catalogs. Sign up for free access all year.

AmericanHort

AmericanHort's signature event, Cultivate has long been recognized by horticulture professionals as the go-to source for new products, new plant varieties and professional development opportunities. With 675+ exhibitors, 100+ professional development sessions and robust networking opportunities, it's no wonder that Cultivate is an industry favorite. [Cultivate'17](#) takes place July 15-18 at the Greater Columbus Convention Center in Columbus, Ohio.

Danziger "Dan" Flower Farm

A new color in Danziger's bidens assortment—pink! Bidens Pretty in Pink is an upright, compact variety decorated with an abundance of pink flowers with purple stripes. Fast-growing and early-blooming, Pretty in Pink excels as a single plant in a pot and can also be used as a tall element in mixed plantings with low and cascading plants. 3

Premier Tech Horticulture

Mid-Atlantic growers, Premier Tech Horticulture is proud to introduce PRO-MIX BK25 and PRO-MIX BK55, two medium-weight peat/bark-based growing media containing processed southern pine bark, sphagnum peat moss and perlite. Designed for greenhouse crops (4-in. pots or larger), PRO-MIX BK25 is a general purpose growing medium offering good drainage and low water retention, while PRO-MIX BK55—which has a high bark content that adds weight for better container stability—is designed for long-term greenhouse crops and outdoor-grown perennials. **GT**
