Greenhouse 101 Class and More From UF

Chris Beytes

If you've got an employee or laborer who has no formal training, but would like to expand his or her knowledge, you're in luck, thanks to the University of Florida.

The Institute of Food and Agricultural Sciences (IFAS) is offering an online course series that starts with Greenhouse 101 (June 19-July 14) and proceeds on to more advanced topics: Nutrient Management 1 and 2, Weed Management, and Costing and Profitability. Cost is just \$199 per class and they can all be completed online. Best of all, they're available in Spanish, too!

To register, go to <http://hort.ifas.ufl.edu/training>. Or shoot an email to greenhousetraining@ifas.ufl.edu to get more info. **GT**
