Registration for Rescheduled Plug & Cutting Conference Now Open

Jennifer Zurko

Registration for the 2019 Plug & Cutting Conference is now open. The Plug & Cutting Conference was originally scheduled for September of last year, but had to be cancelled because of Hurricane Florence. It's now being held *THIS* September 4-6, still in Charlotte, North Carolina.

Prior to the conference on September 4, participants can attend the "Biocontrols for Propagators" workshop or the Production Tour to Metrolina Greenhouses and Rockwell Farms. Educational sessions and the trade show will be held September 5-6.

Register for the event by visiting AmericanHort.org. **GT**
